

RECEPTION FACILITIES AT KOLKATA PORT

Oil Reception Facilities :

Kolkata Port has engaged private firms having approval from Central Pollution Control Board for collection of used oil / waste oil / sludge / oily water from ships calling at this port both for Kolkata Dock System and Haldia Dock Complex. In addition, oil reception facility is available at Oil Jetty of Haldia Dock Complex, wherein oily waste water can be received at treatment plant having two slop oil receiving tanks, each having capacity of 6300 kl., fitted with floating skimmer for separation of oil from water. The above facility is available free of charge.

Reception of Garbage :

Shore bins have been provided at alternate berths of Kolkata Dock System. There is provision for segregated collection of Ship's Garbage in bins for different type of garbage (e.g. Kitchen Waste, Plastic, General Garbage etc.). At Haldia Dock Complex, reception facility for ship-generated garbage has been provided with the assistance of Local Municipality. The facility is available free of charge.

Reception facilities for noxious liquid substances:

At Baj Baj reception facility has been arranged for Methyl Tertiary Butyl Ether and phenol

The concerned agents/ Master of the vessel desirous of using the oil reception facility at Kolkata Dock system are requested to place their requisition with the Office of Director Marine Department at least 48 hours in advance, for making necessary arrangements.
