Sub.: Probable deployment schedule of Floating Cranes

In view of the bunching of vessels requiring the facility of floating cranes for cargo operation, a plan towards deployment of floating cranes for operations at Sandheads and Sagar against the vessels which have been declared so far has been made and the same is attached herewith.

However, the dates are tentative and subject to change depending on actual arrival time of vessels, weather conditions and other Force Majeure issues. It may be noted that if the vessels arrive late then deployment of floating cranes will be arranged as per availability. All stakeholders associated with the vessels must get their documentation and barges ready prior to deployment of the floating cranes. Any lapse in this regard may lead to cancellation / delay in deployment of floating cranes.

Encl: As stated.
