

Notification regarding re-rated capacity of Haldia Dock Complex

*“The current effective rated capacity of Haldia Dock Complex (14 berths inside the impounded dock, 3 Riverine Oil Jetties, 1 POL Barge Jetty and 4 Riverine Fly Ash Jetties) considering the long term constraints stands at 51.0 Million MT per annum. However, at the desired occupancy level of 85% for containerized cargo and 70% for non-containerized cargo the current capacity stands at 43 Million MT per annum.”*
